Mission is Theology: One Nation Under?

Dr. Terry Norris, along with his wife, is the Co-Founder of Emerge Ministries established in 2015 and located in Beulaville, North Carolina. Dr. Norris now serves as the Executive Director. Emerge is a kingdom building evangelistic organization that partners with churches, religious organizations, community and government service providers, City Public Safety Offices, civic groups, and businesses throughout the United States. He is an ordained minister. He holds a Masters in Christian Counseling and a Doctorate in Philosophy from Aidan University. He has concentrated studies in addiction and the eight theories of human behavior. He is also a certified chaplain through the American Chaplains

Association.

About the Session: Has post modernistic and existentialistic philosophy embedded in western culture infiltrated our Biblical worldview concerning the lives of believers? I believe it has, to the point that Christianity is no longer sustainable in America to the extent we remain one nation under God. Are these two views the only contributing factors? Absolutely not. However, there is only one historical solution. A Biblical approach to mission becoming our theology. Something more than a systematic study of methods and strategies. It must take on the same New Testament disposition of Christ Jesus and his followers as it was demonstrated by him and written on their hearts. I hope during and after our discussion in this session you will begin to wrestle with Scripture and explore the part that you play in God's narrative to the world.

Through over 20 moves in 6 states, multiple career paths, schooling attempts, ups and downs in her marriage, family, and finances, she found that she had to learn to embrace life where she was at. She had to learn to trust God to help her navigate through a myriad of life experiences and all those various roles in her life. Believing those experiences were given to her to help others find their purpose in life, Mrs. Ruth embarked upon her chaplaincy certification through the American Chaplaincy Association and received her Suicide "PAIR"

Certification through Liberty University's pastoral counseling graduate program.

About the Session: Current State of Suicide in America According to the Centers for Disease Control and Prevention (CDC) WISQARS Leading Causes of Death Reports¹, in 2017: Suicide was the tenth leading cause of death overall in the United States, claiming the lives of over 47,000 people. Suicide was the second leading cause of death among individuals between the ages of 10 and 34, and the fourth leading cause of death among individuals between the ages of 35 and 54.
